

SWORN DECLARATION OF ALKIVIADES DAVID

(Final Integrated Master Statement)

1. INTRODUCTION

I, Alkiviades David, of Saint John Parish, Antigua and Barbuda, make this declaration with a heavy heart.

These matters reach into my own family and personal life. Speaking publicly brings me deep personal shame.

But silence would make me complicit.

My shame is personal.

My duty is public.

I therefore speak out of duty to truth, justice, and the courts.

2. PURPOSE

This declaration consolidates evidence, preserves the record, and supports judicial scrutiny.

3. BACKGROUND

I founded FilmOn, Hologram USA, and related platforms forming part of Harmonia Trust assets.

4. FAMILY CONTEXT

These matters involve my own family. This is deeply painful but necessary to disclose.

5. INTELLECTUAL PROPERTY & TRUST ASSETS

Hologram USA and FilmOn are core Harmonia Trust assets.

I assert these were interfered with and misappropriated by insiders including Shoefield and Nussbaum.

This includes disruption of Whitney Houston hologram projects and broader commercial systems.

These actions intersect with wider entertainment networks, including those associated with Sean Combs.

6. ANTIGUA EVENTS & BARAK

While in Antigua I was subjected to pressure and financial exploitation, including payments to Daphne Barak.

Her involvement predates key events and intersects with individuals linked to Asot Michael.

7. ASOT MICHAEL

The death of Asot Michael must be examined within the wider evidentiary matrix.

8. UK LEGAL NETWORK

Communications involving Kingsley Napley and related lawyers intersect with these matters.

9. ALTERATION OF COURT FILINGS

I assert that original defendant names were altered in ECSC filings.

I request the Attorney General formally explain how and why these changes occurred.

10. RELIEF

I request preservation of evidence, investigation, and judicial review.

11. STATEMENT OF TRUTH

I believe the facts stated are true.
