

IN THE HIGH COURT OF JUSTICE
KING'S BENCH DIVISION

Claim No.: KB-2025-001991
Appeal No.: CA-2025-002562

**JUDICIAL SUMMARY
(FOR CASE MANAGEMENT PURPOSES)**

APPLICATION

Urgent application for a short stay of enforcement under CPR 83.7.

CORE QUESTION

Should enforcement proceed where there is a credible risk that the evidentiary record is incomplete, under investigation, or subject to parallel judicial correction?

WHY THIS MATTERS

1. Record integrity issue in ANUHCV2025/0149.
2. Active CID investigation (AD-58 bundle).
3. Parallel intervention by U.S. federal courts.

LEGAL TEST

CPR 83.7: stay justified where enforcement risks rendering the appeal nugatory or compromising evidence.

KEY SUBMISSION

Enforcement should not proceed while the integrity of the evidentiary environment is in credible question.

PREJUDICE

If enforcement proceeds: risk to evidence and appeal integrity.
If stayed: no material prejudice to Respondent.

RELIEF SOUGHT

Short stay of enforcement; record confirmation; preservation directions.

BOTTOM LINE

A short stay ensures the appeal is determined in a stable and reliable evidentiary environment.
