Admitted that Gloria Allred told her that she's best friends with Gisela Maxwell. No, told Maria Farmer. Yes.

Absolutely. Yes, yes. So they were doing the same thing to me and Susie, is trying to frame us for crimes we didn't commit.

All the time. To effectuate their stealing of money from us, from Susie's Michael Jackson Trust. Yeah.

Yeah. But that's their pattern, is they frame people for crimes that they want to steal. Yeah, so I mean, that is one of their last acts, or one of the most recent acts, is them trying to lure all of us to Daphne Barack's fair fundraiser, using Blanket and Prince Jackson.

Can you forward me those emails from Daphne? You already did. Bundles, okay. So does.

Yeah. Yeah. Yeah, so that's their pattern too, is to charge us \$8,000 like they did to you, and then use our own money to hurt us after they've lured us to whatever project.

That's part of their pattern too. Adding insult to injury. So think about this.

In 2011, with the Chief Keith stuff, we were working with you at that time. So were they using Chief Keith as a lure, as a incentive, a coercive incentive to you? It was like, here, we'll give you Chief Keith, a deal with Chief Keith, holding it out like it's a big, great thing, in order to get you to stop working with us, to sabotage us. But they don't call it that.

They never call it that. Yes, yeah. When did parrots, when did Danny Parrots get into the picture? What year did Danny be, what year was Danny a driver for your family? 20 years ago.

And then when did he become the bodyguard? And then when did he become a bodyguard? When did he get elevated from? So that's 2005, about. A literal, what did the bomb do? What year was that? Yeah, that sounds familiar. So the bodyguard, that sounds like a Lieberman type operation, is getting one bodyguard to do something.

So then she could bring. Interesting. All right, all right, we'll talk soon.

God bless you.
