“

For eighteen years I have fought, often alone, to expose how a powerful media-legal-adtech nexus manufactures narratives, crushes innovators, and buries evidence. I am a disabled creator with an extreme TBI — not mentally unwell — and I refuse to let intimidation, blacklists, and lawfare rewrite the truth.

Year	Milestone	Why It Matters	Record / Exhibit
2007	Industry leak (MediaDefender) surfaces historic P2P hash-lists	Shows the ecosystem’s knowledge of illicit flows; frames later disputes.	VIACON “Dirty Secrets”
2010–2012	Paramount Digital/ CinemaNow & FilmOn expansion	Independent distribution at scale; pressure and content cut-offs follow (allegation).	FOTV & Hologram USA
2014	Billboard Awards hologram dispute (Michael Jackson)	Legal interface with the Estate; public “show goes on” framing becomes template.	MJ Estate Relations
2016	FOTV S-1/A crowd-financing effort	Ambitious public listing attempt; later spun by headlines despite the actual record.	SEC Outcome & Facts

Year	Milestone	Why It Matters	Record / Exhibit
2019–2020	SEC settlement (no admit / no deny)	\$100k civil penalty for me; \$22,419 disgorgement+interest for Hologram USA; permanent injunctions — not a trial verdict.	Public Record Summary
2019–2025	Global filings & investigations	Antigua, London (KB-2025-001991), U.S. actions; affidavits from lawyers & professionals worldwide (allegations).	Antigua Overview Affidavits
2025	FilmOn “shock win” road to a compulsory license (Judge George Wu)	Court recognition of MVPD pathway against incumbents — validating the model.	Screenshot

Who I Am

- **Innovator & producer:** FilmOn TV, Hologram USA (industry-defining posthumous performances), FOTV, SwissX initiatives.
- **Ambassador-at-Large (Antigua & Barbuda):** Green-economy & sovereign projects — later targeted by lawfare (allegations).
- **Disabled creator with extreme TBI:** Entitled to accommodations and a fair hearing. I reject any psychiatric smear used as a litigation weapon.

What I’ve Seen (as alleged)

- **Narrative manufacturing:** Ratings & ad-tags weaponized to blacklist, de-fund, and discredit while incumbents profit.
- **Suppression loops:** Evidence buried; whistleblowers chilled; “5150” and intimidation tactics used to silence.
- **Asset extraction:** Receivership/probate pressure, distressed sales, and media blackouts working in concert.

Alki David — Publisher, Media Architect, SIN Network Creator - live, direct-to-public communication, media infrastructure, accountability journalism, and independent distribution. Born in Lagos, Nigeria; educated in the United Kingdom and Switzerland; attended the Royal College of Art. Early internet broadcaster — participated in real-time public coverage during the 1997 Mars landing era using experimental

online transmission from Beverly Hills. Founder of FilmOn, one of the earliest global internet television networks offering live and on-demand broadcasting outside legacy gatekeepers. Publisher of SHOCKYA — reporting since 2010 on systemic corruption inside the entertainment business and its expansion into law, finance, and regulation. Creator of the SIN Network (ShockYA Integrated Network), a federated media and civic-information infrastructure spanning investigative journalism, live TV, documentary, and court-record reporting. Lived and worked for over 40 years inside global media hubs including Malibu, Beverly Hills, London, Hong Kong and Gstaad. Early encounter with Julian Assange during the first Hologram USA operations proved a formative turning point — exposing the realities of lawfare, information suppression, and concentrated media power. Principal complainant and driving force behind what court filings describe as the largest consolidated media–legal accountability action on record, now before the Eastern Caribbean Supreme Court. Relocated to Antigua & Barbuda and entered sustained legal, civic, and informational confrontation over media power, safeguarding, and accountability at Commonwealth scale.
