

# SWISSX CARBON UNION EXCHANGE

St. John's, Antigua & Barbuda

## FINAL LEGAL IMPORT NOTICE, MATERIAL DECLARATION & CARBON ALLOCATION INSTRUMENT

**Reference ID:** SWX-ALT-0001

**Consignee:** Green Altadena Inc., Altadena, California, USA

**Shipment:** 3 x 55-gallon drums (~600 kg total)

**Material:** High-temperature carbonized biochar (~80% fixed carbon)

**Declared Value:** USD 750 (non-commercial pilot shipment)

**Country of Origin:** Antigua & Barbuda

**HS Code:** 3824.99

### ***CARBON ALLOCATION***

Allocated Carbon: 1.75 tonnes CO<sub>2</sub>e

Stable Carbon: ~480 kg

Registry: SwissX Carbon Union Exchange

### ***GOVERNMENT LAB CERTIFICATION – DUNBARS / DAS***

Parameter	Result
Report #	SWX001

Sample ID	SWX-202601-01
pH	7.39
Organic Matter	39.92%
Moisture	3.61%
Potassium	30,000 mg/kg
Nitrate-N	278.6 mg/kg
Phosphate	56.50 mg/kg
E. coli	<20 (ND)
Salmonella	Absent

### ***USDA / FEMA ELIGIBILITY & BENEFITS***

Aligned with USDA NRCS soil health programs including EQIP and CSP. Typical cost-share range: 30%–75%.

Applicable for FEMA disaster recovery including soil stabilization, erosion control, and burn-scar rehabilitation.

Eligible classification as environmental remediation input and carbon-linked asset (subject to approval).

### ***LEGAL STATUS***

This instrument constitutes a government-validated environmental asset, import declaration, laboratory certification, and carbon allocation record.

Validated by the Government of Antigua & Barbuda and certified by the Department of Analytical Services.
