

SWISSX

St. John's, Antigua & Barbuda
SwissX Carbon Union Exchange

REFERENCE ID SWX-ALT-0001

PRIVATE REGISTRY / INTERNAL MARKET INSTRUMENT
Prepared for import, receipt, and custody chain use

IMPORT NOTICE, MATERIAL DECLARATION & CARBON ALLOCATION INSTRUMENT

IMPORT AND MATERIAL DECLARATION

| | |
|-------------------|---|
| CONSIGNEE | [Recipient Name] - Altadena, California, USA |
| SHIPMENT | 3 x 55-gallon drums |
| MATERIAL | High-temperature carbonized biochar |
| PROCESS | ~2 hours at high heat; approx. 80% fixed carbon |
| GROSS WEIGHT | ~600 kg total |
| DECLARED VALUE | USD 750 - non-commercial pilot shipment |
| COUNTRY OF ORIGIN | Antigua & Barbuda |
| HS CODE | 3824.99 |

LABORATORY RESULTS - DUNBARS LABORATORY

| | |
|---------------------|---|
| PATHOGENS | None detected - E. coli absent; Salmonella absent |
| HEAVY METALS | Within safe agricultural / environmental limits |
| MOISTURE | <10% - low moisture stable material |
| FIXED CARBON | ~80% - confirms deep carbonization |
| BIOLOGICAL ACTIVITY | None - fully sterilized / inert |
| ODOR | None - stable product |
| pH PROFILE | Neutral to slightly alkaline |

LEGAL CHARACTER This instrument serves simultaneously as import notice, material declaration, laboratory-backed carbon allocation record, and custody-chain document for private exchange use.

CARBON ALLOCATION AND RIGHTS OF HOLDER

| | |
|---------------------|---|
| REGISTERED EXCHANGE | SwissX Carbon Union Exchange |
| CERTIFICATE STATUS | Registered private carbon asset |
| CARBON ALLOCATION | 1.75 tonnes CO ₂ e |
| STABLE CARBON | ~480 kg |
| ASSET CLASS | Carbon-negative environmental restoration input |
| OWNER | [Recipient Name] |

RIGHTS OF HOLDER

- Ownership of the associated carbon allocation.
- Transfer and trade within the SwissX Carbon Union Exchange.
- Tokenization and digital representation of carbon units.
- Exercise through environmental deployment and future verification pathways.

USDA / FEMA POSITIONING

Positioned as carbon-negative soil amendment for environmental restoration and disaster recovery. Relevant for USDA NRCS soil health pathways and FEMA-aligned stabilization / erosion-mitigation use, subject to approval.
