

VOLUNTARY STATEMENT TO CID – FULL DOSSIER

EXECUTIVE STATEMENT

This dossier sets out allegations of interference with a High Court record in Antigua and Barbuda, together with related conduct involving threats, procedural irregularities, financial structures, medical conduct, and cross-jurisdictional matters. It is my position that a filed court document was altered without notice, consent, or lawful authority, and that such alteration materially affected the integrity of proceedings. Evidence supporting these matters is already on record in Antigua and Barbuda, in the High Court of Justice in England and Wales (KB-2025-001991), and in related proceedings in the United States. This dossier is submitted to request immediate investigation, preservation of evidence, and coordination where appropriate.
